

Kono Seafood Marlborough Sounds

Bypass filtration snapshot

"Aside from the time and financial savings we have gained from having to service our vessels less, we are spending significantly less on hydraulic issues on all of our vessels since we installed Astrea bypass filtration."

DEAN HIGGINS, ON WATER MANAGER

- 5 Vessels: Charolin, Hikapu, Kerit-iti, Miro and Privateer are used in the seeding, maintenance and harvesting of Kono's expansive mussel farming operation.
- Each vessel has been fitted with Astrea engine oil, hydraulic and fuel filtration.
- Prior to fitting Astrea filtration, engine oil was changed every 250 hours.
- With Astrea filtration, engine oil and OEM filters are now changed every 1000 hours.
- Increased the service intervals by 300%.
- There has been a noticeable reduction in the amount of hydraulic issues.
